

eGIS Associates designated an Esri ArcGIS Online Specialty Partner

Dacula, Georgia, February 20, 2019 – Esri recently recognized eGIS Associates expertise with their ArcGIS Online cloud solution by designating us and ArcGIS Online Specialty Partner. This exciting designation means eGIS Associate has demonstrated proven expertise and services to help users implement and optimize ArcGIS Online for their organizations. is excited to announce that we have been designated as a Release Ready Specialty partner by Esri.

Tripp Corbin, CEO of eGIS Associates, said *“This our second specialty recognition and a big accomplishment for eGIS. Esri continues to recognize and value the expertise and skills our team puts brings to the table to support our clients and the ever-expanding ArcGIS technology stack. We are constantly looking for ways our clients can use the ArcGIS platform to make their lives easier. ArcGIS Online is a key part of that thanks to its amazing versatility. I am very proud of our team for making it possible for us to earn this new specialty designation from Esri.”*

eGIS Associates has had the honor to assist many organizations implement, configure, use and manage ArcGIS Online. Our clients have included local governments, educational institutions, non-profits, utilities and private companies. This has included training staff members, configuring the organizations portal, publishing data and apps, implementation planning and more.

To become an ArcGIS Online Specialty Partner, eGIS Associates had to demonstrate expertise on ArcGIS Online capabilities and how it integrates with the latest Esri products. We were able to do this easily with our current list of services and training classes which included:

1. [Geospatial Road Map](#) – Assessment of an organizations GIS Implementation including hardware, software, database, workflows and staff which provides a strategic Road Map of recommendation to take your GIS to the next level.
2. [FlightPlan for ArcGIS Online](#) – Assessment and assistance to help your organization implement and get the most for Esri’s ArcGIS Online cloud solution
3. [Enterprise Design & Implementation](#) – Our GIS and IT pros help organizations design and implement Esri enterprise solutions such as ArcGIS Enterprise, Online, Insights, Portal and more.

4. [Training & Support](#) – We have a catalog of over 30 course we have developed from beginner to advanced users across the entire ArcGIS Platform including ArcGIS Pro, Arcade, Python, ArcGIS Enterprise and ArcGIS Online.

This is eGIS Associates' second specialty designation. Recently, we were also identified as a Release Ready Specialty Partner. The Release Ready Specialty identifies eGIS Associates as having industry expertise and solutions, services or content offerings built around ArcGIS latest capabilities.

eGIS Associates is working to earn additional Esri specialties to recognize all the skills and expertise our team has supporting the GIS community and our clients. If you want to learn more about the ArcGIS Online or Release Ready Specialty or how eGIS Associates maybe to help your organization get the most from GIS please contact us at info@egisassociates.com.
